■ The dental implant that brings the highest satisfaction to both patients and dentists.

At BIOTEM,

we continuously enhance product stability and surgical convenience through ongoing technological innovation and R&D.

We develop implant systems that offer clinicians a precise and efficient surgical environment, while delivering a highly reliable treatment experience to patients. Building on this foundation, we are strengthening our competitiveness in the global market.

With a spirit of innovation and continued investment, we aim to grow into a leading global company specializing in advanced implant technologies.

CLEAN IMPLANT
FOUNDATION
TRUSTED QUALITY

Clean Implant Certification Acquired

“Clean Implant” Certified for Uncompromising Quality

The Clean Implant Foundation, headquartered in Berlin, Germany, is an international non-profit organization that scientifically evaluates the cleanliness and safety of dental implant surfaces.

Only implants that meet the strictest standards—through rigorous assessments of contamination levels, particle analysis, and cytotoxicity—are awarded the Clean Implant Certification.

BIOTEM’s implant systems have passed these rigorous standards, earning Clean Implant Certification for their exceptional surface cleanliness.

CLEAN IMPLANT FOUNDATION

TRUSTED QUALITY 2025-2027

This certificate is awarded to

BIOTEM

for the dental implants

AR System

The aforesaid implants comply with the Cleanimplant Quality Mark Criteria according to the guideline and consensus recommendation of the Scientific Advisory Board released September 2017.
